SHAIK KHAJA MOHID

Hyderabad | +91 8886669654 | Mohidshaik2001@gmail.com | LinkedIn | Portfolio Website | Github

PROFILE

- Analytically driven graduate with expertise in Python, SQL, and Tableau, having completed Deloitte's Data Analytics Virtual Experience Program and built multiple hands-on projects with real-world datasets.
- Passionate about solving business problems through data storytelling, dashboards, and insights; actively seeking to contribute to a data-driven organization while continuously upskilling in analytics and BI tools.

EDUCATION

Malla Reddy Engineering College	**2024**	**Narayana Junior College**	**2019**	**Indo English High School**	**2017**
B.Tech		MPC	Intermediate	SSC	10th
CSE		89.9%		9.5 CGPA	
8.03 CGPA					

PROJECTS

Mohsa Data Analysis **2025**

- Led data analysis for the MohSa project, focusing on sales, customer behavior, and delivery performance across multiple product categories.
- Cleaned and processed large datasets using Python (pandas, numpy) to extract actionable insights for business decision-making.
- Developed three interactive dashboards in Tableau: Sales, Customer Insights, and Delivery Performance, displaying various KPI metrics and charts.
- Visualized key performance indicators (KPIs) related to sales trends, customer demographics, and delivery efficiency to drive business strategy.
- Generated actionable insights from the entire project, providing recommendations on inventory management, customer segmentation, and delivery optimization.

INTERNSHIP

Forage **2025**

Deloitte Data Analytics Virtual Job Simulation

- Completed real-world tasks involving data cleansing, analysis, and visualization to support a client-facing business case.
- Analyzed customer data using Excel to uncover actionable insights for improving client performance.
- Demonstrated proficiency in handling ambiguous business problems and converting them into structured analysis.
